

# HEARTLAND INTIMACY DESIGN & TRAINING INSTITUTIONAL SUBSCRIPTION

Create cultural change at every level with the Heartland Intimacy Design & Training Institutional Subscription. One of the greatest challenges facing cultural change in theatrical intimacy work is getting the tools into everyone's hands. Workshops can help in the short term, but after a few years, tools have changed and the students that received that knowledge have now graduated. What if there was a way to integrate theatrical intimacy pedagogy into *every* theatre classroom and offer tools at the drop of a hat?

## Easy, Universal Access to Intimacy Fundamentals

With the Institutional Subscription, all of your staff, faculty, students, technicians, and actors have access to intimacy training fundamentals at any time, anywhere. Containing over 50 modules and over an hour of video demonstrations, there is no comparison to the breadth and depth of content.

## Effortless Curriculum Integration

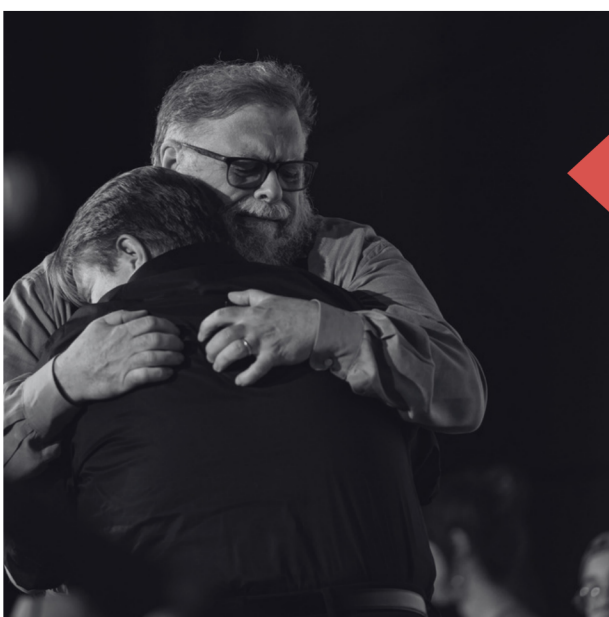

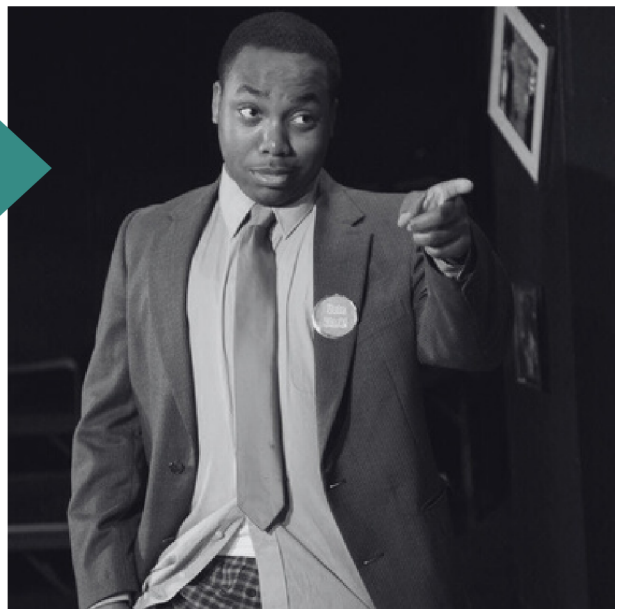

The institutional subscription offers readings, video demonstrations, and lectures that can be easily implemented into acting, movement, script analysis, and stage management courses at all levels. There are also resources for research-based courses like capstone projects.

## Universal Login Capability

By creating a universal login for all students, staff, and faculty to access, the Institutional Subscription eliminates the challenge of individual user setup and significantly reduces technical difficulties.

## Significant Savings

The goal of Heartland is to be academic, accessible, and affordable. As the **only** institutional subscription on the market, we tailor our cost to the size of company or department. If you have budgetary concerns, please reach out and we are more than happy to work with you.

## Continuously Updating Curriculum

As more content, classes, articles, and pedagogical developments occur in the intimacy field, the institutional subscription also updates with the newest articles, lectures, and video demonstrations. The newest standards in intimacy work are always right at your fingertips.
